`fastrls` *Recursively list files and directories*

Description

Recursively list files and directories

Usage

```
fastrls(
  dir,
  include_dirs = TRUE,
  include_files = TRUE,
  include_links = TRUE,
  follow_links = TRUE,
  n_threads = 2L
)
```

Arguments

dir	string: starting directory
include_dirs	logical: if TRUE, include directories in the results
include_files	logical: if TRUE, include files in the results
include_links	logical: if TRUE, include links in the results
follow_links	logical if TRUE, follow symbolic links
n_threads	integer: if > 1, use multiple threads. Might be counter-productive on hardware that can't cope with simultaneous requests (spinning disks?)

Value

A character vector

Index

fastrls, 1
